About Me

I've started coding at school, then after attending the distributed systems course at Sapienza, I found my true passion. Having experiences both sides allows me to bridge the gap between development and operations effectively, understanding not only how to manage infrastructure, but also the code running on top of it.

Skills

Cloud, Containers Docker, Kubernetes, Helm, SUSE RKE2, Amazon Web Services (AWS)
GitOps, CICD GitLab Pipelines, GitHub Actions, ArgoCD
Infrastructure-as-Code (IaC) Terraform, Ansible
Languages Go, Bash, Python
Sysadmin Linux
Monitoring & Observability Prometheus, Grafana
Security SUSE NeuVector

Professional Experience

Zucchetti **06.2024 - Present**
DevOps Engineer

- Responsible for our datacenter infrastructure (VMware vSphere machines), while also handling deployment and monitoring of our products
- Actively replacing manual processes with **Terraform** and **Ansible** code, following IaC best practices
- I also develop and manage custom tools and middleware services for our internal workflows, mostly in **Go** or **Python**
- I've led our migration to a self-hosted, containerized PostgreSQL environment, providing a middleware API layer for our internal development team

Keypartner **07.2022 — 06.2024**
DevOps Engineer

- Designed and built a production-ready **Kubernetes platform** (Rancher/RKE2) for *Elettronica S.p.A.* (ELT Group), handling security & compliance requirements of a defense-sector environment
- Provided ongoing Kubernetes maintenance and support: major cluster upgrades, service provisioning, and troubleshooting
- Collaborated with the development teams to build **CI/CD** workflows based on GitLab Pipelines, supporting the entire software development lifecycle
- Taught a hands-on workshop for Italian government bodies (*Camera dei Deputati*, *COR*), explaining cloud-related topics like distributed systems, networking and security for containers, distributed storage, etc.

Education

Sapienza University of Rome | Computer Science **A.A. 2020 — 2022**
Master's Degree in Computer Science

Sapienza University of Rome | Informatica **A.A. 2016 — 2020**
Bachelor's Degree in Computer Science (Informatica)

Hobbies & Interests

- **Tabletop games, roleplaying**: At least once a week we gather to play D&D or other tabletop games
- **Literature**: Big fan of the Dune books; a science fiction saga without robot nor computers seems at first a paradox, but here comes the genius of Frank Herbert
- **Cinema**: I appreciate the unique style of David Lynch and Tarantino
